

Charitable Donations in lieu of flowers

It is becoming a more common practice for families now to request charitable donations at funerals in memory of their departed loved ones. We realise that quite often families already have a charity in mind which is special to them or the person they have lost. However, there are also times when a family may ask advice on charities which are in aid of local causes, or perhaps they are looking for a way of supporting a charity which helps a particular group of people.

Donating to **TeamEvie** is an ideal cause for people who wish to support a local charity, a children's charity or a hospital charity as it combines all three. Leaflets can be supplied giving information about how **TeamEvie** started, it's aims and details of our website and social media pages.

You will be familiar with the benefits to charities of people gift aiding their donations. **TeamEvie** can process any such donations and claim back tax relief on the gift at the prevailing rate. We can also supply you at quite short notice with **TeamEvie** donation envelopes for this purpose.

Contact TeamEvie for further information.
